

QUESTION #1

WHAT ISSUES,
CONCERNS, DESIRES,
AND EXPECTATIONS
DO YOU HAVE ABOUT
THE MASTER
PLANNING
INITIATIVE?

4/29 Louisville
Q1 Pg 1 - Pg

- Signage Helpful to Hikers
- Multi-use trails to ReState between user groups like Betasso
- Boulder Creek Path has become raceway - Users should be slowed-down
- Create Valmont Bike park like experience in Mountains
- Davidson Mesa Trail has been successful share-use - b/c of separate sys. for dog area.
- Good parking (at trailheads)
- OK to host commercial events, races on trails
- Important to connect Islands of Recreation
Hill, Hill, Walker, etc.....
- Be cognizant of Hunting & Recreational Shooting Areas
- Important to connect people to where they want to play
↳ with opportunities to do that w/o driving
- Hope for Agreement between agencies to coordinate efforts on adjacent properties
- Would like E-W connection from Louisville to Boulder
↳ connect existing trails, incorporate ditch R-O-W

- Hiker Access to Benjamin Loop / 1/4-mile Canyon Link
- Would like opportunity for ~~CE~~ SKIING — Like @ Brainard Lake
↳ AND SNOW SHOES
- Longer Hiking / Backpacking Opportunities in Foothills
- Concern over speed of travel for ~~TRAIL~~ users
↳ Need for separate connections / opportunities
- Keep from widening existing trails → for ~~wild~~ flower growth
- Extending the Anne U. White ← priority
- Connect Louisville / SE county to Western trail opportunities...
↳ Ways to connect sans car
- Marshall Rd. to Payhoffer ← Connect this missing Link
Funded underpass should ~~be~~ ^{equal} poss. Re-prioritization
- Back of Chatagva to Barker to Eldora ... ← connection
- Boulder to Lyons connection
- Better links / trails w/in 1st & 2nd Foothills ← Year Round Mtb. Access
- Eldora ~~to~~ WALKER

4/29 Louisville

Q1 - pg 3

- Consider wildlife issues — Mindful of Habitat Areas

- Pool DATA for trails to Create MAP AS part of this process

PLANNING PRINCIPLES

(See Question # 2 Results)

- Good trail Design & Maintenance

Q2 Pg 1.

- Manage user experience while protecting Resources

- Be Accessible / connectivity

- Recognize diff. users & Develop system for each

- Acknowledge Private Property rights

- Consistency in rules/regulation/enforcement between borders / mgmt. agencies

- Limit trailhead parking / Don't create destinations

- Create network that will disperse users

- Minimize need to drive to trails

- Need for real-time info — not just maps & more trails

- Need to engage young people in planning process

- Leave it ~~better~~ better than found

- Incorporate best trail design practices for sustainability

QUESTION # 2

WHAT PRINCIPLES
OR VALUES ARE
IMPORTANT TO
YOU FOR GUIDING
THIS PLANNING
PROCESS?

• Consider wildlife issues — Mindful of Habitat Areas

(See Question # 1 Results)

• Pool DATA for trails to create MAP AS part of this process
